

Week 5 Resources & Enhancement Activities

Grade: Preschool

Week of:

Guideline:

We worked hard to ensure that the Learning Plan provides accessibility for all learners. We hope that you see that there are options to engage learners at all levels. *These activities are not intended to replace the normal school day. For the elementary level, students are to turn in one student chosen **At this time we are expecting you to turn in two activities of your choice for the week to your Teacher.*** We want you to take time to enjoy family, be safe, stay healthy and find time within this week to engage in learning opportunities. Feel free to create a schedule that works for you and your family. We strongly encourage each student to participate in approximately two hours a day. We want your brain working and challenging yourself, while staying safe and having fun.
