

AP Chemistry Learning Activities

Week 4 for April 13 through April 17

We worked hard to ensure that the Learning Plan provides accessibility for all learners. We hope that you see that there are options to engage learners at all levels. These activities are not intended to replace the normal school day. ***There is now an expectation for students to turn these documents in to your specific educators.*** We want you to take time to enjoy family, be safe, stay healthy and find time within this week to engage in learning opportunities. Feel free to create a schedule that works for you and your family. We strongly encourage each student to participate in approximately two hours a day. We want your brain working and challenging yourself, while staying safe and having fun. There are additional options for reading.

The Learning Activities Document only provides a brief description of the choices students have to demonstrate their learning. For access to the student documents, please go to GoogleClassroom. When finished, students can submit their work to their teacher on GoogleClassroom. If a parent would like to be added to the Google Classroom, please send an email to your student's teacher.

For Additional Information on Community Resources and Support See:

Note that AP Chemistry is continuing to move forward with instruction, due to the AP Chemistry Exam on May 14, 2020.

Day (Date)	Topic	Lesson	Problem Set Due
M: 4/13/20	LeChatlier's Principle Quantitative Analysis	Screencast Video Video Resources Problem Set	T: 4/14/20
T: 4/14/20	LeChatlier's Principle ICE a Reaction	Screencast Video Video Resources Problem Set	W: 4/15/20
	Office Hours from 2:00 to 3:00		
W: 4/15/20	Solubility Rules Net Ionic Equations Solubility Constant	Screencast Video Video Resources Problem Set	R: 4/16/20
R: 4/16/20	ICE a Reaction	Screencast Video Video Resources Problem Set	F: 4/17/20
	Office Hours from 2:00 to 3:00		
F: 4/17/20	Review Equilibrium	Problem Set	M: 4/27/20
