Roll Call: McNamara, Powers, Veitch, Monroe, Kuechler

During the public comment section of the agenda, Mrs. Pamela Kuechler stated “I see that we have a number of members of the public who have signed up for public participation at our meeting this evening. I want to remind everyone that the Committee has a policy governing public participation at its meetings.

Our policy provides that topics for discussion must be limited to those items listed on the School Committee meeting agenda for this evening unless the Chairperson allows another relevant topic. I note that the topics identified in the sign up for public participation this evening are not items listed on the School Committee’s agenda tonight, and are topics that were addressed at our last meeting. For those of you not here last time, at that time I explained that this topic is outside of the jurisdiction of the School Committee. I further said that the school committee does not speak about individual personnel matters in public meetings. Additionally, the School Committee is not able to overturn personnel decisions, such as decisions to non-renew teachers, made by the Administration, because by law it is not within our purview.

We have a full agenda scheduled for this evening with presentations. Because of that, and the fact that I exercised my discretion and allowed for comment at our last meeting on this topic, we will only be entertaining public comment on items listed on the agenda this evening.”

There was no report from the student advisory committee.
